**You're invited to help envision the future of Lowell's historic Farm!**

Lowell Parks & Conservation Trust, Mass Audubon and Mill City Grows have partnered to protect Rollie's Farm. We envision establishing an urban wildlife sanctuary, farm, and education center for the community of Lowell.

We want to hear from you about how we can connect the Lowell community to nature at this location. Join one of our first Community Listening Sessions to learn more about the farm and share your ideas!
